

High Speed Internet Access

If you wish to use your laptop in the apartment, we can give you wide band internet access, **free of charge**. You can use this service however, only for normal usage: e-mails, internet search, skype etc. You are not allowed to use this service for downloading or uploading very extended files such as films, concerts, etc. The limit of the data flow is an average of 150 MB/day.

Security deposit for the modem: EUR 100,-

This deposit will be entirely paid back for you at the time you give us back the modem, if the modem is still working properly, and the data flow limit has been not exceeded.

This service has to be ordered in advance, together with your reservation request.
